PROFESSIONAL SUMMARY

Frontend specialist transitioning into full-stack engineering with 2+ years of experience building scalable, high-performance web applications. Proven track record of delivering production-ready solutions that serve thousands of users. Passionate about clean code, system architecture, and creating exceptional user experiences.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Tailwind CSS, Framer Motion

Backend: Node.js, Express, PostgreSQL, Prisma, RESTful APIs

Tools: Git, Docker, Vercel, Supabase, Neovim, TMUX

Learning: System Design, AWS, Redis, Microservices Architecture

WORK EXPERIENCE

Frontend Engineer

Tech Startup Inc. | Remote | Jan 2024 - Present

- Reduced application bundle size by 40% through strategic code-splitting and lazy loading
- Improved Lighthouse performance score from 65 to 95 through optimization techniques
- Built real-time collaboration features using WebSockets serving 10,000+ concurrent users
- Mentored 2 junior developers on React best practices and modern development workflows

Frontend Developer

Digital Agency | Hybrid | Jun 2023 - Dec 2023

- Delivered 8 client projects on time and within budget across multiple industries
- Increased mobile conversion rates by 25% through responsive design optimization
- Implemented WCAG 2.1 AA accessibility standards across all projects
- Established CI/CD pipeline using GitHub Actions, reducing deployment time by 60%

Full-Stack Developer

Freelance | Remote | Jan 2022 - May 2023

- Built and launched 5 production applications for small businesses and startups
- Achieved 100% client satisfaction rate with all deliverables meeting expectations
- Reduced client infrastructure costs by 50% through serverless architecture
- Established long-term retainer relationships with 3 clients for ongoing support

FEATURED PROJECTS

Freelancer Analytics Dashboard | React, Tailwind, TanStack Query, WebSocket

- Full-stack business intelligence platform for software freelancers with real-time updates
- Custom WebSocket provider achieving 40ms latency for live financial tracking

Lockin Salon Appointment | Next.js 15, Supabase, NextAuth.js, Stripe

- Salon booking platform with OAuth, payment integration, and role-based access
- Dynamic availability management with email notifications and admin dashboard

EDUCATION

Bachelor of Science in Computer Science

University Name | Graduated 2022 | GPA: 3.8/4.0
